

Great Ormond Street Hospital Children's Cancer Centre

Replacing outdated facilities at Great Ormond Street Hospital

CLIENT

Great Ormond Street Hospital

LPA

London Borough of Camden

STATUS

Ongoing

SERVICES

Planning, Heritage and Townscape, Landscape and VIA

Our role

- Turley is currently providing a combined Planning, Heritage & Townscape and Landscape & Visual Impact Assessment (VIA) offer in support of the submission of a planning application which was submitted to the London Borough of Camden in May 2022.
- The new development will redevelop the existing Frontage Building at GOSH and replace it with a new state of the art building that will become the new "front door" to the hospital.
- The design brief for the development was created in partnership with staff, patients and families articulating their shared aspiration for a building to express the key GOSH guiding principle: 'The child first and always'.

Results

- The design team is being led by BDP and includes contractor John Sisk.
- The new building will replace outdated facilities with a high quality environment consistent with the hospital's world-renowned paediatric care and research activities.
